Estonian

English

Profile

I'm a Software Engineer with about 10 years of work experience. I'm able to proficiently tackle almost any technology stack that you can throw at me. Thus far I've mostly written code in JavaScript, TypeScript, PHP, Clojure, ClojureScript or Swift.

Suffice it to say, I have been building digital products for my entire adult life. I'm always open to challenges, however large they may be.

Employment History

Senior Software Engineer, GreenPowerMonitor

Sep 2018 – Present 📍 Barcelona, Spain

Helping the renewable energy sector get more out of their plants by developing monitoring tools at the second biggest company of such kind. My role is to develop and maintain a SPA written in a mixture of ClojureScript, JavaScript & TypeScript, by utilizing tools such as React.js and Ant Design.

Software Engineer, Freelance

Jan 2017 – Aug 2018 📍 Tallinn, Estonia

I built web-based solutions with PHP based software such as WordPress and Laravel as well as with Javascript based software such as Angular and Vue.js.

Software Engineer, VURR

Aug 2016 – Jan 2017 📍 Tallinn, Estonia

I developed websites and custom campaign applications tightly integrated with social media services for companies such as Stockmann, Toyota, R-Kiosk and Catwees.

Software Engineer, Webest Meedia

May 2015 – May 2016 📍 Tallinn, Estonia

I developed custom themes and plugins for WordPress based web solutions.

Courses

User Experience: The Beginner's Guide, The Interaction Design Foundation

Apr 2020 – Jun 2020

Design Thinking: The Beginner's Guide, The Interaction Design Foundation

Apr 2020 – Jun 2020
